## EXPERIENCE

### **CAPTURE.COM**

#### **Jr. Product Manager**

**New York, NY**

**July 2014 – September 2015**

*Capture is a enterprise platform for media publishers to search, request, and publish social media content from users on their digital properties. Media publishers can also connect with smartphones anywhere in the world for real-time live streaming of breaking news events.*

- Managed development, QA, and launch of "List" feature to 500 users that resulted in 40% usage rate.
- Owned acceptance-testing process for all products, including web, API, iOS, and Android apps.
- Defined and implemented product development ticket process, increasing product team's productivity.
- Led sprint meetings to prioritize feature tickets across design, front end, back end, iOS, and Android teams.
- Delivered internal communication on new feature launches after code deploys to production environment.

### **CAPTURE.COM**

#### **Intern**

**New York, NY**

**March 2014 – June 2014**

- Developed UX wireframes for iOS and Android live stream app user flow.
- Created product requirements and specs for Capture publisher web app and iOS/Android live stream apps.
- Assembled Mixpanel metrics reports for business development and client teams for product strategy.

### **METSO POWER (Now known as VALMET)**

#### **Proposal Engineer**

**Charlotte, NC**

**July 2012 – October 2013**

- Managed \$1 Million USD LignoBoost project development with a cross-functional team.
- Built Excel Operating Cost and ROI tool for LignoBoost projects to produce cost estimates for clients.
- Assessed and produced cost estimates for \$40 million USD 6 MW modular BioPower plant.

### **COCA-COLA BOTTLING COMPANY CONSOLIDATED**

#### **Logistics Operator**

**Charlotte, NC**

**May 2011 – May 2012**

- Distributed up to 38 trailers of beverage products to 5 distribution centers across the South East.
- Strategized the release of approximately 1200 pallets a day to meet customer orders in a time sensitive process.
